Roll to Pop

Directions: Cut out the three dice and fold. Begin the game by rolling all three dice which will tell you the object of your turn. Dice one will tell you what body part you have to pop the bubbles with. The second dice will tell you how many bubbles you have to pop and the third dice will tell you how long you have to pop all your bubbles. Take turns with other players and if you succeed your challenge you move on but if you can't pop all the bubbles in time you are out. Keep playing until you have one last player standing to declare the winner!

Dice 1
