Forever Fold

Directions: Color and cut out the foldable on the right. Follow the instructions below to put your forever foldable fidget together.

Below the Sea

1st Fold all the solid black lines and the dotted black lines.

2nd Unfold your paper & glue the squares on the right. Fold the left side over & attach to the glued side to create a tube. Make sure the graphics are on the outside of your tube & let dry completely before you move to step 3.

3rd Fold your tube to create a circle & glue the two ends together. Add some tape for a better hold and wait for the glue to dry completely.

4th Once everything has dried you can begin your endless foldable fun. Watch as it fold in and around itself to show all four sides!
