

Chalkin' It Up

Directions: Choose one game or play them all. Read how to play each game and grab your chalk to have a blast!

Hopscotch

How to Play:

Take your chalk and draw a hopscotch board. Use a small object or pebble and roll it to see what square it lands on. Whichever square it lands on is the one you have to hop on one foot to. Once you get to your square you pick up your pebble and jump back to the start.

Obstacle Course

How to Play:

You get to design your own obstacle course. Be creative and add fun twists and turns. Do tasks like jumping in place or spin around 10 times to complete your obstacle course. Have fun and when your course is done take turns playing and you can even time yourself to see how quick you can complete the course.

Pictionary

How to Play:

This game is super easy! One player thinks of a person, place, or thing and they have to draw what their word is while the other player has to try and guess what they are drawing. Take turns and have fun!

Chalkin' It Up

Directions: Choose one game or play them all. Read how to play each game and grab your chalk to have a blast!

4 Square

How to Play:

Draw 4 squares and grab a basketball or playball. Each player gets their own square and the goal of the game is to bounce the ball to another square and bounce it to another player before it bounces twice in their square. If they don't pass the ball their out. The player who got out will go to the 4th spot and everyone else will move up spots.

Color Search

How to Play:

This is another simple game for kids of all ages. Take as many colors as you want and draw a big circle for each color. Set a timer for 3 minutes and see if you can find an item for each color.

Portrait

How to Play:

Lay down on the ground and have someone trace around you until you have a silhouette of yourself. Then you can get up and color your chalk self. Be as creative as you want and add all the fun details and accessories you can possibly think of.
