# Glove Gone Wild

**Directions:** Follow the instructions below to set up the game. Then read the “how to play” directions and put on your glove and get to catching!

## Set Up

Take your colored tape and make a circle on the floor or table to make your game arena. Grab your dice and a baseball glove or any soft glove you may have around the house.

## How to Play

Have each player put their baseball inside of the circle, holding the opposite end of the string outside the circle. The youngest player will be the catcher with the “glove” and dice. If they roll a double then the catcher tries to catch as many baseballs by putting the glove over top the baseballs still in the circle. As soon as the doubles are rolled, everyone must pull out their baseballs as fast as they can before being caught. If your baseball gets caught then you must pay the catcher with one of your tokens. After doubles are rolled you pass the dice and glove to the player on your left and they become the catcher. Continue going around the circle taking turns being catcher. Once you have no tokens left you are out of the game. The player with the most tokens at the end of the game wins!
