

Kindness Rays

Directions: Cut out the sun and rays. Write your name in the middle of the sun. Now go around the room and find another sun with a different name. Think about that person and write them a nice complement or kind words that describe that person. Move throughout the room and do the same thing for each persons sun. After the activity is complete you should have a sun full of kindness rays. You can then glue your rays onto the back of the sun and hang it up to display!
