

# Unlock the Word

**Directions:** Cut out all cards and place them in a pile face down. Separate your group into two teams. Set a timer for 60 seconds and have one player on your team pick up a card and try to describe the word on that card. Sounds easy except you can't use the locked words below to describe your word. If you use one of the locked words you have to put that card back in the pile. If you come upon a card you can't explain to your team then you can pass and put that back in the pile. If you can correctly have your teammates guess the word then you keep the card and pick up a new one until your timer runs out. Once the time runs out it is the next teams turn to do their 60 sec round. After all the cards have been guessed, each team will count how many they got right and which ever team has the most cards at the end wins! Print out the extra cards and get creative with new festive Christmas words to add to the deck.
